

CR16 from CR43 to the East County Line

Project Manager, Design: Jay Grossman

Project Manager, Construction: To Be Named

Construction: Elkhart County Highway and Subcontractors

Inspection: Elkhart County Highway

Scope: The roadway will be reconstructed with additional 8 foot wide lanes on each side for buggy and bicycle traffic. Sight distance problems due to hills will be improved, notably at the county line. New ditches and drainage structures will be placed. This project matches up with a sister project being developed in LaGrange County.

Information Updates:

Utility relocation is currently progressing, and is expected to be completed in mid-September, at which time construction will begin.
