## INTRODUCTION

The purpose of this plan is to ensure that Elkhart County creates reasonable, accessible paths of travel in the public right-of-way for everyone, including people with disabilities. The County has made a significant and long-term commitment to improving the accessibility of their pedestrian facilities. The Transition Plan identifies physical barriers and prioritizes improvements that should be made throughout the County. This Transition Plan describes the existing policies and programs to enhance the overall pedestrian accessibility.

### TRANSITION PLAN HISTORY AND OVERVIEW

Since the adoption of the American with Disabilities Act (ADA) in 1990, Elkhart County has incorporated accessibility standards into all new design and construction projects. Furthermore, Elkhart County has promoted the incorporation of sidewalks, curb ramps and other pedestrian friendly facilities into their development standards for new subdivisions. Periodic inspection and upgrades of the facilities in place are completed as funds are available.

In 2012, Elkhart County adopted “Americans with Disabilities Act Transition Plan: Pedestrian Facilities in the Public Right-of-Way.” Numerous new curb ramps, sidewalks, and pedestrian crossings have been installed throughout the county in the subsequent years. The plan included in this document demonstrates the continued progress by Elkhart County to make their pedestrian facilities reasonably accessible for all persons.

## LEGAL REQUIREMENTS

The federal legislation known as the American with Disabilities Act (ADA), enacted on July 26, 1990, provides comprehensive civil rights protections to persons with disabilities in the areas of employment, state and local government services, and access to public accommodations, transportation, and telecommunications.

Title II specifically applies to “public entities” (state and local governments) and the programs, services, and activities they deliver. Title II Article 8 requires public entities to take several steps designed to achieve compliance. The plan shall, at a minimum include:

1. A list of the physical barriers in a public entity’s facilities that limit the accessibility of its programs, activities, or services to individuals with disabilities.
2. A detailed outline of the methods to be utilized to remove these barriers and make the facilities accessible.
3. The schedule for taking the necessary steps to achieve compliance with Title II.
4. The name of the official responsible for the plan’s implementation.

Transition plans provide a method for a public entity to schedule and implement ADA required improvements to existing streets and sidewalks. Before a transition plan can be developed, an inventory of the current curb ramps and sidewalks must be developed.

## IDENTIFIED OBSTACLES TO THE PUBLIC RIGHT-OF-WAY

Elkhart County has a two-tiered system to identify and assess obstacles in the public right of way: a Preliminary Evaluation and a Detailed Evaluation. The barriers used in the evaluations are based on the *Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* ("ADA Guidelines") from the U.S. Architectural and Transportation Barriers Compliance Board and *Chapter 51: Special Design Elements* from Indiana Department of Transportation 2013 Design Manual, as revised in 2016 ("INDOT Guidelines").

### PRELIMINARY INTERSECTION EVALUATION

The first tier is a Preliminary Evaluation of the intersections. The purpose of this evaluation is to determine which intersections are obviously non-compliant with the ADA Guidelines and to get a comprehensive overview of the complete pedestrian network. The preliminary inventory evaluates three (3) criteria for curb ramps and three (3) criteria for sidewalks:

#### Curb Ramps

1. Is there a curb ramp?
2. Does the curb ramp have a color contrasting detectable warning?
3. Does the curb ramp have a clear landing at the top of the ramp?

#### Sidewalks

1. Is there a continuous clear space for pedestrian access?
2. Does the sidewalk appear to provide adequate passing zones?
3. Does the sidewalk appear to be smooth without grade breaks?

The Preliminary Evaluation utilizes aerial and street-level photography to view each intersection. The criteria used can be seen on these aerials and are key design components to determine ADA compliance. If the curb ramps and sidewalks do not meet the criteria, then that intersection does not need further evaluation because it is obviously non-compliant with the ADA Guidelines. If it did meet the criteria, then that intersection would be "potentially compliant" and would need a Detailed Evaluation to determine if it fully complies with the ADA Guidelines.

### DETAILED INTERSECTION EVALUATION

The second tier is a Detailed Evaluation of the intersections identified as "potentially compliant" during the Preliminary Evaluation. This requires fieldwork at the intersection and measuring of specific physical attributes, such as width, running slope, and gaps in the curb ramp or sidewalk, to determine compliance to the identified ADA barriers. For a description of the identified barriers see Attachment A. When the data is gathered, it is recorded into an

intersection database<sup>1</sup>. The result from this evaluation is a detailed understanding of the ADA barriers at that intersection.

### CURB RAMP INVENTORY

In 2021, Elkhart County began the task of assessing all curb ramps individually throughout the county. Previous evaluations looked only at intersections of two or more roads. However, many curb ramps are located mid-block and, therefore, were not encompassed within the original scope of the evaluations.

With this inventory, the County is in a better position to prioritize improvements of all curb ramps, based on where non-compliant facilities are located. See Attachment B for maps and lists of these curb ramp locations.

## METHODS TO REMOVING BARRIERS – POLICIES & PRIORITIES

Elkhart County utilizes many different approaches in removing barriers in the public right-of-way, including proactively identifying and eliminating the barrier, responding to public complaints, and ensuring the appropriate design and build-out of new construction following the most recent design guidelines.

### BARRIER REMOVAL PRIORITIES

Elkhart County bases barrier removal priorities on location. According to the *Accessible Rights-of-Way: A Design Guide*, “the DOJ regulation imposes a specific construction requirement...specifies a priority for locating (curb ramps) at: State and local government offices and facilities; transportation; places of public accommodation; places of employment; and other locations.” Following this guidance, Elkhart County identified its location priority as follows:

1. Intersections serving government facilities,
2. Intersections serving commercial and employment centers, and
3. Intersections serving other areas.

### PUBLIC COMPLAINT PROCESS

The public complaint process is an integral part of the Transition Plan. Public complaints or requests may often drive the prioritization of improvements. To file a complaint or a request regarding accessibility of a sidewalk or curb ramp, contact the ADA Coordinator in writing and describe the issue in detail, including the location. The ADA Coordinator will route this information to the appropriate county department for inspection and possible action. That department will then respond to the ADA Coordinator with its findings, and the ADA Coordinator will record the formal response and reply to the complainant/requestor. All

---

<sup>1</sup> The database is quite large and is constantly updated; it is not feasible for it to be included in the text of this ADA Transition Plan. The database may be made available for public review by advanced written request to the ADA Coordinator.

complaints or requests will be kept on file and will include the response. Attachment C is a copy of Elkhart County's Public Grievance Procedure for Pedestrian Facilities in the Public Right-of-Way.

### NEW CONSTRUCTION & ALTERATIONS

In order to ensure the correct design of curb ramps, sidewalks, and crosswalks in new construction and alterations, the County has adopted the *Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way* (see Attachment C for a copy of the resolution). Whenever there is an intersection improvement project or new construction project, any affected curb ramps, sidewalks, and crosswalks will be rebuilt to these ADA design guidelines, where feasible and reasonable.

### SCHEDULE

As opportunity allows, the County will make efforts to improve the ADA Accessibility of pedestrian facilities in the public right-of-way. As stated in the *Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way*, "compliance is required to the extent practicable within the scope of the project." There will be times when it is technically infeasible to provide technical compliance: for example, if clear space at the top of the ramp is obstructed by a building or the slope of a hill is so extreme as to prevent a reasonable slope for a ramp in both directions. The inventory process may not account for such situations and could show a high-priority rating when all feasible actions have been taken.

Additionally, given a program as broad and comprehensive as Elkhart County's pedestrian network, the concept of Program Access under Title II of the ADA will be followed. Program Access does not necessarily require a public entity to make each of its existing facilities accessible to and usable by individuals with disabilities, as long as the program as a whole is accessible. Under this concept, the County may choose not to install a sidewalk at some locations (or to install them as a lower priority later), as long as a reasonable path of travel is available even without the sidewalk.

### RESPONSIBLE INDIVIDUAL

The official responsible for the implementation of the County's ADA Transition Plan for the pedestrian facilities in the public right-of-way is:

Katie Niblock  
Project Engineer & ADA Coordinator  
610 Steury Avenue  
Goshen, IN 46526

Email: kniblock@elkcohwy.org  
Phone: (574) 533-0538  
Fax: (574) 533-7103

## PUBLIC INPUT

Elkhart County provided opportunities for individuals to comment on this Transition Plan, which included:

- Document copies available at the Highway Department
- Document made available on Elkhart County's website
- Presentation at a public meeting on November 27, 2023

The County published legal notices in the major newspaper(s), Elkhart Truth and Goshen News starting on October 18, 2023. The legal notices announced the availability of the Transition Plan draft at the local public library with easy public access. These notices also provided instructions regarding the timetable for comments and where to send them. Public comments were accepted for a period of no less than 30 days, ending November 20, 2023. Public comment form is available on Attachment D.

Formal adoption of the Transition Plan took place on November 27, 2023. It will be available on the web and by written formal request to the ADA Coordinator.

## ATTACHMENT A

- 1. ADA GUIDELINES USED IN DETAILED INTERSECTION EVALUATION**
- 2. DETAILED INTERSECTION EVALUATION FORM**
- 3. INDOT MANUAL GUIDELINES USED IN DETAILED CURB RAMP EVALUATION**

**ADA GUIDELINES USED IN DETAILED INTERSECTION EVALUATION****Curb Ramps**

In evaluating the accessibility of existing curb ramps, the following factors were considered:

1. Is there a curb ramp?
2. Is there a curb ramp where a sidewalk crosses a street?
3. What type of curb ramp?
  - a. Perpendicular curb ramp
  - b. Parallel curb ramp
  - c. Blended transitions
4. Is the width of the curb ramp at least 4 feet wide (excluding flares)?
5. Are there detectable warnings properly installed where a curb ramp or blended transition connects to a street?
6. Is the running slope greater than 5% but less than 8.3% (blended transition 5% maximum)?
7. Is the cross slope less than 1%?
8. Is the landing a minimum of 4 feet x 4 feet?
9. Is the surface of the curb ramp or blended transition firm, stable, and slip resistant and clear of gratings, access covers, and other appurtenances?
10. Is the grade break at the top and bottom of the ramp flush and not located on the surface of the curb ramp, landing, or gutter areas?
11. Is the counter slope of the gutter or street at the foot of the curb ramp less than 5%?
12. Is the clear space beyond the curb face at least 4' x 4'?
13. If the curb ramp is perpendicular, is the slope of the flared sides less than 10% where a pedestrian path crosses the curb ramp or if the sides are returned, are they protected from cross travel?

### Sidewalks

In evaluating the accessibility of existing sidewalks, the following factors were considered:

1. Is there a sidewalk at each corner?
2. Is there at least 4 feet of continuous and unobstructed clear width of a sidewalk (excluding the curb width)?
3. If the continuous width is less than 5 feet, are the passing spaces at least every 100 feet along the sidewalk that are 5 feet wide or greater?
4. Is the cross slope of the sidewalk less than 1%?
5. Where the sidewalk is adjacent to the street, does the grade of the sidewalk not exceed the general grade of the street?
6. Is the surface of the sidewalk firm, stable, and slip resistant?
7. Are any gaps in the surface less than  $\frac{1}{2}$  inch?
8. Is the sidewalk clear of grates or if there is a grate:
  - a. are the openings no more than  $\frac{1}{2}$  inch wide and
  - b. do the elongated openings run perpendicular to the direction of travel?
9. Is the sidewalk clear of protruding objects? If there is a protruding object is:
  - a. the leading edge of that object less than 17 inch and more than 80 inch above the ground, or
  - b. the protrusion less than 4 inches into the travel path of the sidewalk, or
  - c. a barrier is provided no more than 17 inches from the ground where the vertical clearance is less than 80 inches.

### Crosswalks

In evaluating the accessibility of existing crosswalks, the following factors were considered:

1. Is there a crosswalk that connects two sidewalks across a street?
2. Is the width of the marked crosswalk at least 6 feet?
3. Does the cross slope of the crosswalk meet the following guidelines:
  - a. If the crosswalk is crossing a street with a stop control, is the cross slope less than 1%?
  - b. If the crosswalk is crossing a street without a stop control, is the cross slope less than 5%?
4. Is the running slope of the crosswalk less than 5%?
5. If the crosswalk crosses a median, is the length of the median at least 6 feet and does it contain detectable warnings located at curb line or edge of the roadway?
6. If the intersection signalized, does it have a pedestrian signal, if so, does the pedestrian signal phase allow enough time for a walking speed of 3.5 ft/sec?

**INDOT MANUAL GUIDELINES USED IN DETAILED CURB RAMP EVALUATION**

Curb ramps were identified by looking at satellite imagery near known sidewalks and were defined based on the presence or lack of an obvious detectable warning. Each curb ramp was given a unique identification code that links it to the intersection code, if there is one, and locates the ramp within the intersection or roadway.

Curb ramps with a detectable warning are ready to be evaluated for ADA compliance. Requirements are assessed based on the INDOT Manual, Chapter 51 and included the following elements:

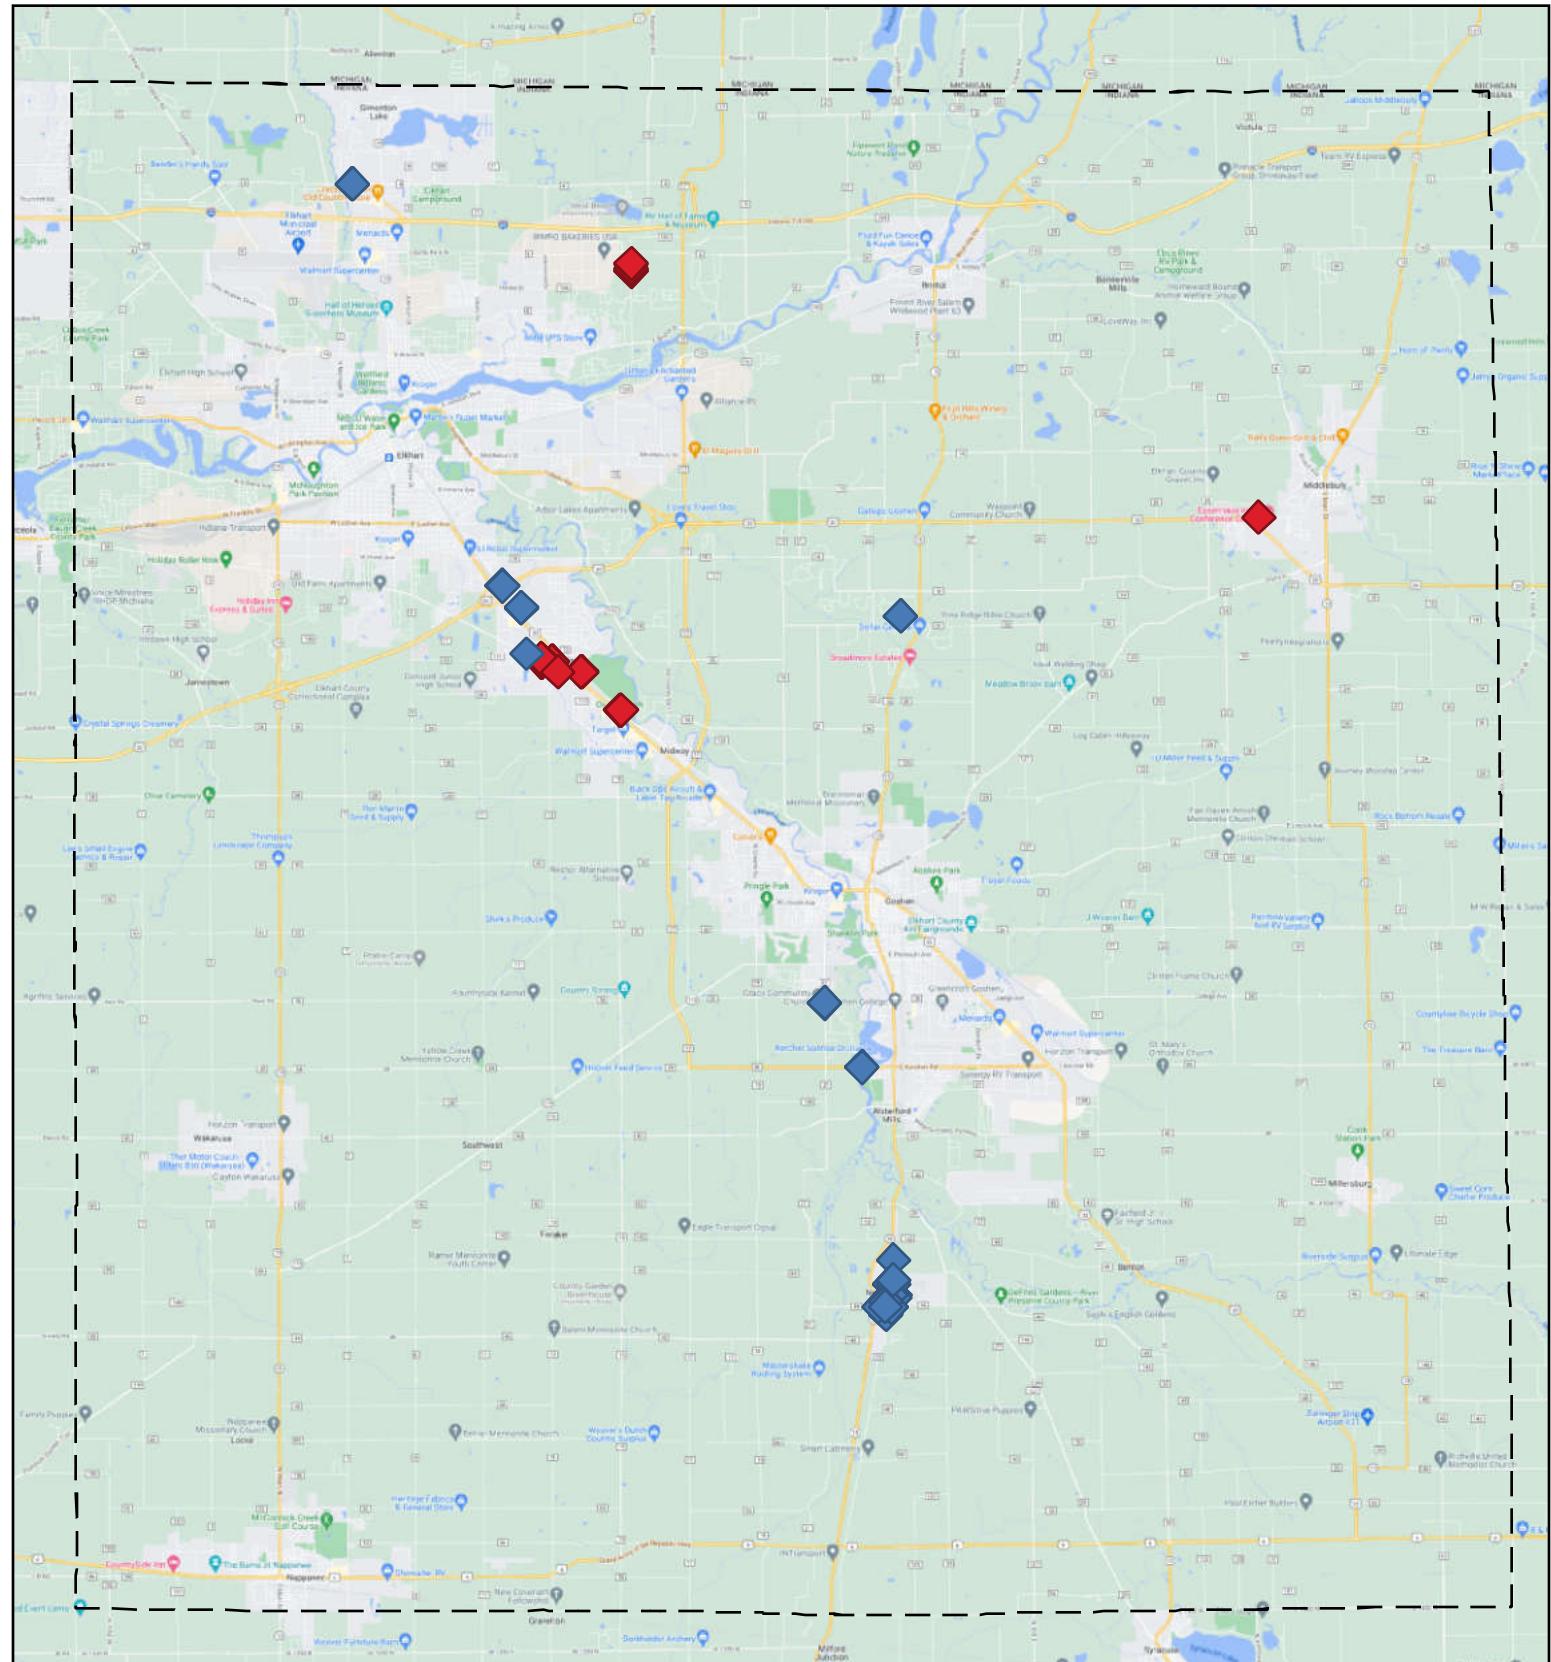

1. The width of a ramp or blended transition, excluding any flares, is no less than 48 inches. [51-1.04(2)]
2. The running slope of a ramp and sidewalk transition(s) is no steeper than 8.33%. [51-1.04(2)]
3. The running slope of a blended transition is no steeper than 2% or is no steeper than 5% and has a sidewalk at least 48 inches wide at the back of the ramp. [51-1.04(2)]
4. The cross slope of a ramp or blended transition is no steeper than 2%. [51-1.04(2)]
5. Where there is a constraint (for example, a wall, curb, or utility pole) at the back of the sidewalk that enters into a turning space by more than 2 inches, the turning space is at least 48 inches wide and 60 inches long with a slope of no more than 2.0% in any direction. [51-1.04(2)].
6. Where there is no constraint at the back of the sidewalk, a turning space is at least 48 inches wide and 48 inches long with a slope of no more than 2.0% in any direction. [51-1.04(2)].
7. There is clear space at the bottom of a ramp, turning space, or blended transition that is at least 48 inches wide and 48 inches long with a slope of no more than 2.0% in any direction. [51-1.04(2)]
8. The clear space is completely outside of the parallel vehicle travel lane. [51-1.04(2)]
9. The clear space is completely within the crosswalk markings. [51-1.04(2)]
10. A flare is installed on a curb ramp side(s) where a walkable route crosses the ramp. [51-1.04(2)]
11. The flare(s) of the curb ramp have a slope no steeper than 10%. [51-1.04(2)]
12. A returned curb is installed only where a curb ramp intersects a buffer, sodded area, or other non-walkable surface or where protected from pedestrian travel by landscaping, street furniture, fencing, utility pole or railing. [51-1.04(2)]

13. The counter slope at the base of a ramp or blended transition is no steeper than 5%. [51-1.04(2)]
14. There is a detectable warning surface installed at the bottom of a curb ramp, blended transition, or turning space. [51-1.04(2)]
15. The detectable warning surface is the full width of the ramp, blended transition, or turning space and at least 24 inches deep, located at the back of the curb. [Department of Justice, 2010 ADA Standards for Accessible Design, 406.8]
16. The surface of the curb ramp and landing spaces is stable, firm and slip-resistant. [Department of Justice, 2010 ADA Standards for Accessible Design, 302.1]
17. The top and bottom edges of the ramp are flush with the adjacent pavement. [2005 INDOT Standard Drawing No. E 604-SWCR-02]

The curb ramp inventory is housed in a GIS database that can be joined to intersection data.

RAMP LOCATIONS**

## High and Medium Priority Intersections

### LEGEND

Elkhart County Border

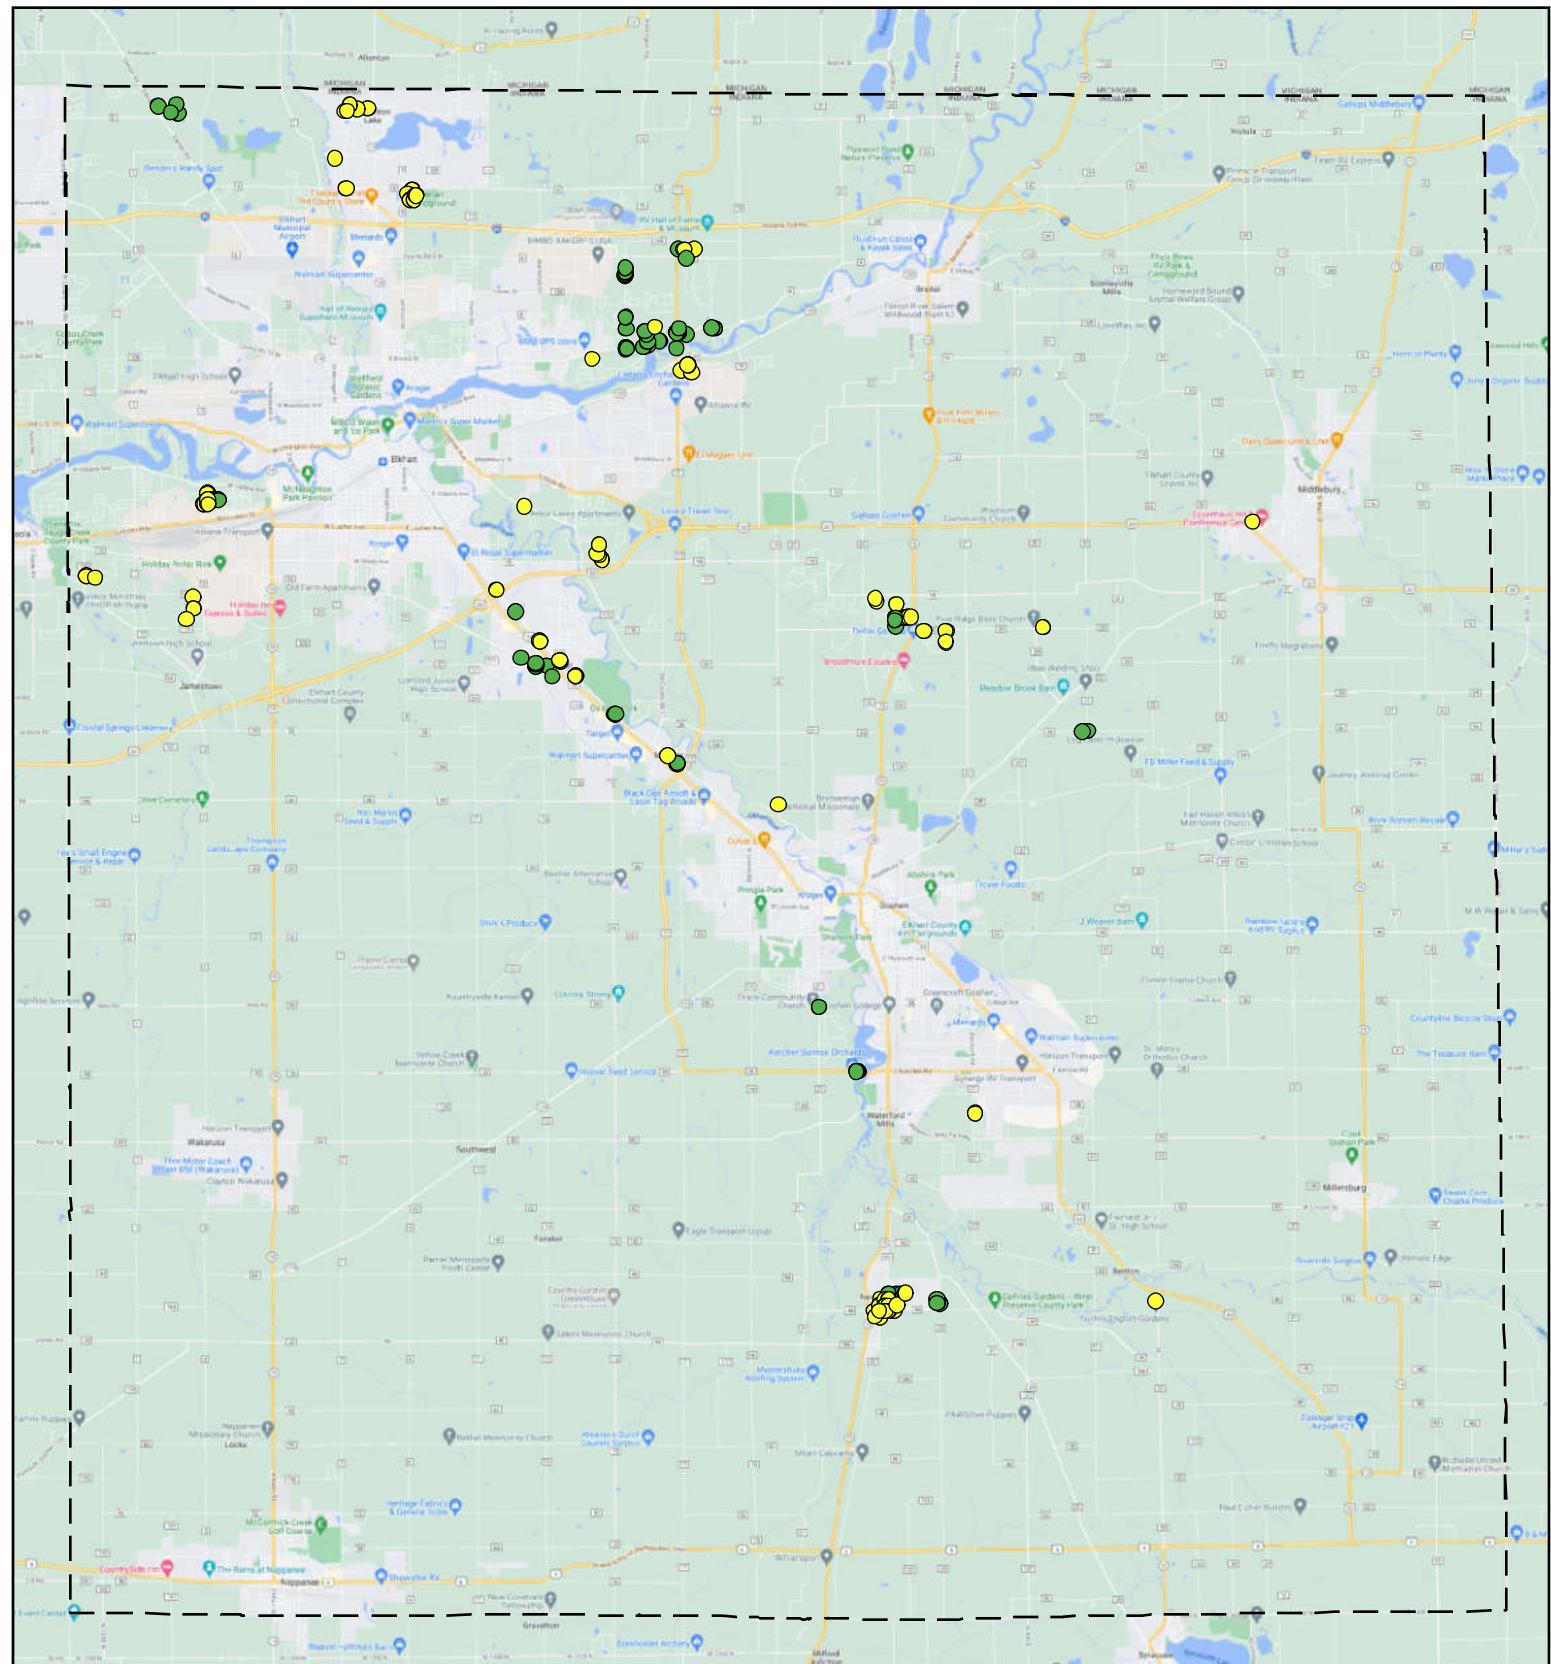

#### Location Priority Level

High Priority Location

Medium Priority Location

Priority locations were identified by MACOG in 2012 based on proximity to government facilities (high priority), commercial and employment centers (medium priority), and other areas (low priority). Map produced by Dovetail Projects © 2022.

## Entrances to the Roadway From a Sidewalk

### LEGEND

Elkhart County Border

#### Ramps Installed

- Yes, without a detectable warning
- Yes, with a detectable warning

Curb ramps and sidewalks were identified using Google Hybrid satellite images and streetviews. Status was determined based on the most recent imagery available and, therefore, may be outdated. Dovetail Projects © 2022

## All Existing and Proposed Curb Ramp Locations - Ranked by Location Priority

The following table organizes all existing and proposed curb ramp locations by their location zone ('M1\_Zone') and by ramp status ('STATUS').

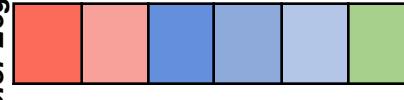

**M1\_Zone** : Zone location of the intersection, as assessed by MACOG in 2012. Data from file: EC\_ada-data\_MACOG.zip, field 'Zone'

- "1" = Intersections serving government facilities
- "2" = Intersections serving commercial and employment centers
- "3" = Intersections serving other areas

**STATUS** : Status identifier for each curb ramp.

- "YesRamp" = There is a ramp installed and it has a visible detectable warning. These ramps are ready to be checked for compliance.
- "NeedsRamp" = There is a curb cut and/or a sidewalk that meets the edge of the roadway. These locations are obviously not compliant due to the missing detectable warning, but may otherwise be compliant. These locations can be checked for compliance.
- "NeedsConnect" = This is usually a break in continuity within a sidewalk or point on a sidewalk that should be connected to a curb ramp. These locations do not have curb ramps and should be further assessed to determine how continuity should be provided.

**Color Legend :**

- = Highest priority location, has a ramp, but not a detectable warning
- = Highest priority location, has a ramp with a detectable warning
- = Medium priority location, doesn't have a curb ramp at all, but one should be considered
- = Medium priority location, has a ramp, but not a detectable warning
- = Medium priority location, has a ramp with a detectable warning

All greens are low priority locations

DISABILITIES ACT TRANSITION PLAN: PEDESTRIAN  
FACILITIES IN THE PUBLIC RIGHT-OF-WAY**

**RESOLUTION 11-385**

**A RESOLUTION OF THE BOARD OF COMMISSIONERS  
OF THE COUNTY OF ELKHART, INDIANA  
REGARDING THE AMERICANS WITH DISABILITIES ACT  
AND ACCESSIBILITY STANDARDS**

**WHEREAS** the Federal government enacted the Americans with Disabilities Act of 1990 (ADA) to prevent discrimination of the physically and mentally disabled relating to employment and access to public facilities;

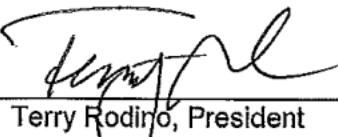

**WHEREAS** Title II of the ADA requires that local government entities comply with the ADA and its implementing regulations, including standards for accessible design to remove accessibility barriers;

**WHEREAS** the United States Department of Justice recently modified the ADA regulations and the ADA Standards for Accessible Design in 2010; and

**WHEREAS** Elkhart County remains committed to the ADA and the elimination of accessibility barriers to public facilities;

**NOW, THEREFORE, BE IT RESOLVED** that the Board of Commissioners of the County of Elkhart, Indiana hereby confirms its intent to comply with the ADA and its implementing regulations, including the requirements of the 2010 ADA Standards for Accessible Design, all as hereinafter amended from time to time.

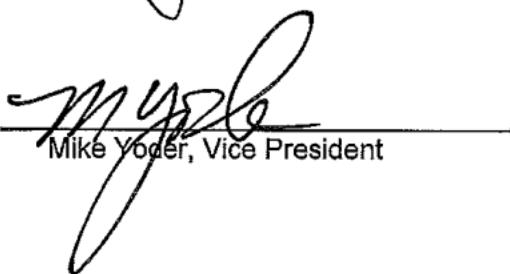

**RESOLVED AND ADOPTED** this 7 day of November, 2011.

**RESOLUTION 11-386**

**A RESOLUTION OF THE BOARD OF COMMISSIONERS  
OF THE COUNTY OF ELKHART, INDIANA  
ESTABLISHING THE AMERICANS WITH DISABILITIES ACT  
ADA COORDINATOR AND PROCEDURES**

**WHEREAS** the Federal government enacted the Americans with Disabilities Act of 1990 (ADA) to prevent discrimination of the physically and mentally disabled relating to employment and access to public facilities;

**WHEREAS** in compliance with Title II of the ADA, Elkhart County shall name an ADA Coordinator;

**WHEREAS** in compliance with Title II of the ADA, Elkhart County shall adopt a grievance procedure for resolving complaints alleging violation of Title II of the ADA;

**WHEREAS** in compliance with Title II of the ADA, Elkhart County shall publish notice to the public regarding the ADA; and

**WHEREAS** in compliance with Title II of the ADA, Elkhart County shall post the ADA Coordinator's name, office address, and telephone number along with the ADA Notice and ADA Grievance Procedure on its website;

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Commissioners of the County of Elkhart, Indiana as follows:

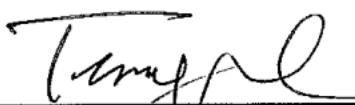

Katie Niblock, P.E., Project Engineer for the Elkhart County Highway Department, is designated as the ADA Coordinator for Elkhart County.

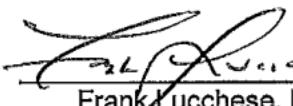

The Notice under the Americans with Disabilities Act, a copy of which is attached hereto, is adopted as Elkhart County's ADA Notice under the Americans with Disabilities Act.

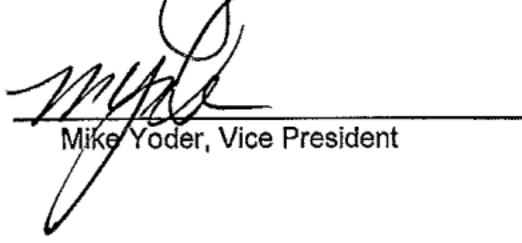

The Elkhart County Grievance Procedure under the Americans with Disabilities Act, a copy of which is attached hereto, is adopted as the grievance procedure for addressing complaints alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by Elkhart County.

In compliance with Federal law as set forth above, Elkhart County will post the required information regarding the ADA Coordinator, Elkhart County ADA Notice, and the Elkhart County Grievance Procedure under the Americans with Disabilities Act on its website and at such other locations as may be determined from time to time.

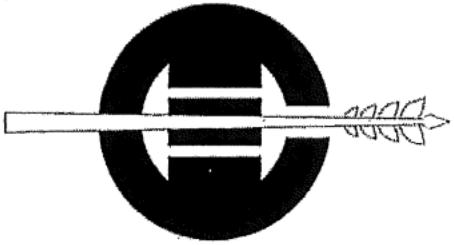

**RESOLVED AND ADOPTED** this 1 day of November, 2011.

  
Terry Rodino, President

  
Frank Lucchese, Member

  
Mike Yoder, Vice President

ATTEST:   
Pauline Graff, Auditor

## **ELKHART COUNTY Grievance Procedure under The Americans with Disabilities Act**

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act of 1990 ("ADA"). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by Elkhart County. Elkhart County's Personnel Policy governs employment-related complaints of disability discrimination.

The complaint should be in writing and contain information about the alleged discrimination such as name, address, phone number of complainant and location, date, and description of the problem. Alternative means of filing complaints, such as personal interviews or a tape recording of the complaint, will be made available for persons with disabilities upon request.

The complaint should be submitted by the grievant and/or his/her designee as soon as possible but no later than 60 calendar days after the alleged violation to:

**KATIE NIBLOCK  
ADA COORDINATOR  
610 Steury Ave Goshen, IN 46528, 574-534-9394, kniblock@elkcohwy.org**

Within 15 calendar days after receipt of the complaint, Katie Niblock or her designee will meet with the complainant to discuss the complaint and the possible resolutions. Within 15 calendar days of the meeting, Katie Niblock or her designee will respond in writing, and where appropriate, in a format accessible to the complainant, such as large print, Braille, or audio tape. The response will explain the position of Elkhart County and offer options for substantive resolution of the complaint.

If the response by Katie Niblock or her designee does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision within 15 calendar days after receipt of the response to the Elkhart County Commissioners or their designee.

Within 15 calendar days after receipt of the appeal, the County Commissioners or their designee will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the County Commissioners or their designee will respond in writing, and, where appropriate, in a format accessible to the complainant, with a final resolution of the complaint.

All written complaints received by Katie Niblock or her designee, appeals to the County Commissioners or their designee, and responses from these two offices will be retained by Elkhart County for at least three years.

**RESOLUTION 2012-494**

**A RESOLUTION OF THE BOARD OF COMMISSIONERS  
OF THE COUNTY OF ELKHART, INDIANA  
ADOPTING THE AMERICANS WITH DISABILITIES ACT (ADA)  
TRANSITION PLAN  
FOR PEDESTRIAN FACILITIES IN THE PUBLIC RIGHT-OF-WAY**

**WHEREAS**, the Federal government enacted the Americans with Disabilities Act of 1990 (ADA) to prevent discrimination of the physically and mentally disabled relating to employment and access to public facilities; and

**WHEREAS**, Title II of the ADA requires that municipalities develop and adopt a Transition Plan documents physical barriers to accessibility, proposed structural modifications to remove those barriers, and a schedule to complete the modifications; and

**WHEREAS**, the Board of Commissioners of the County of Elkhart adopted Resolution 11-385 pertaining to ADA Standards for Accessible Design and Guidelines for Pedestrian Facilities in the Public Right-of-Way; and

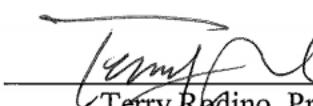

**WHEREAS**, the United States Department of Justice recently modified the ADA Standards for Accessible Design and the Guidelines for Pedestrian Facilities in the Public Right-of-Way in 2010 and 2011, respectively; and

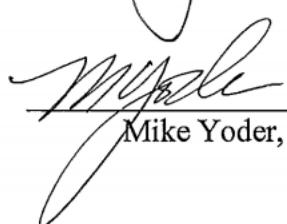

**WHEREAS**, the Board of Commissioners of the County of Elkhart remains committed to the ADA and the elimination of barriers to public facilities; and

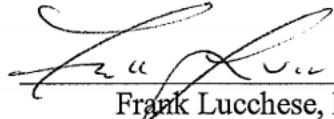

**WHEREAS**, a Transition Plan for the pedestrian network has been prepared that reflects current municipality infrastructure and ADA design standards, referred to as the "ADA Transition Plan: Pedestrian Facilities in the Public Right-of-Way"

**NOW, THEREFORE, BE IT RESOLVED** that the Board of Commissioners of the County of Elkhart hereby approves the ADA Transition Plan: Pedestrian Facilities in the Public Right-of-Way.

**PASSED, APPROVED AND ADOPTED** this 3rd day of December, 2012.
